Rahul Jadhav

Frontend Developer | React & JavaScript | 4+ yrs Experience
[rahuljadhav96196@gmail.com] | [7057523896] | [https://www.linkedin.com/in/rahuljadhav-96196/]

Professional Summary

Frontend Developer with 4+ years of experience building highly interactive **CRMs and dashboards** using **React, JavaScript, HTML, CSS, Bootstrap, and jQuery**.
Experienced in developing **user-friendly interfaces**, optimizing workflows, and integrating frontend applications with backend databases to deliver scalable, real-world solutions.
Strong at solving complex UI challenges, improving performance and user experience, and working closely with backend teams while mentoring junior developers.

Technical Skills

Frontend: React, JavaScript, HTML, CSS, Bootstrap, jQuery, Modular CSS
Backend / Database: MySQL, PHP (basic integration with frontend)
Tools: Git, VS Code, Chrome DevTools, React Bootstrap
Other: Responsive UI, Task/Dashboard Development, Form Validation, API Integration

---

Professional Experience

Frontend Developer | Xponential Technology Services | 2021 – Present

- Owned frontend development of lead-generation and telephony CRMs, supporting **100+ active users**
- Designed and implemented **interactive dashboards and task management modules** using React, including dynamic forms, modals, and data-driven tables
- Implemented **authentication and role-based access control** (login, signup, profile management) with secure backend integration
- Built **real-time task status and priority updates**, improving team productivity by ~30%
- Integrated React frontend with MySQL backend, dynamically fetching and mapping foreign-key data for status, priority, and assignee fields
- Improved UI responsiveness and maintainability by migrating **global CSS to modular, component-scoped styles**
- Reduced production issues by adopting **component-based architecture and reusable UI patterns**
- Guided and mentored junior developers on React fundamentals, state management, and frontend best practices

---

Key Projects

Delivered multiple production-grade applications including **2 lead-generation CRMs, 1 telephony CRM, and an AI Chatbot interface**, focusing on scalable UI, workflow optimization, and user experience.

Task Manager Application (React, MySQL, PHP)

- Developed a **full-featured task management app** supporting create, update, delete operations with priority and status tracking
- Integrated React frontend with **MySQL database via PHP backend**, handling real-world data flows and API responses
- Implemented **controlled forms, input validation, and React Bootstrap modal workflows**

Lead-Generation CRM Dashboard

- Designed and implemented a **CRM dashboard** featuring task assignment, analytics cards, and role-based user views
- Built an **interactive and responsive UI** using animated counters, tooltips, and dashboard components
- Streamlined lead follow-up, **reducing manual tracking by ~50%**

Education

Master's in Computer Science
